SUMMARY

Stevia rebaudiana (Bertoni) is a South American plant native to Paraguay that traditionally has been used to sweeten beverages and make tea. The word 'stevia' refers to the entire plant and its components, only some of which are sweet. The sweet tasting components of the stevia plant are called steviol glycosides. Steviol glycosides can be isolated and purified from the leaves of the stevia plant and are now added to some foods, beverages and tabletop sweeteners in the U.S. and elsewhere. Stevia is a delicious alternative to table sugar. It is often said to be up to 300 times sweeter than sugar, making it measurable by the drop or pinch, vs Tablespoon or cup.
