## Abstracts

### SUMMARY

Hair extensions are a type of cosmetic product that alters the appearance of natural hair by making it appear longer, thicker, layered, or simply a different style. They can be made with two different types of material — human hair and synthetic hair. Human hair extensions are made from real human hair, while synthetic ones are manmade from a variety of synthetic fibers. The primary advantage of synthetic hair extensions is affordability, as they tend to cost far less and are more readily available.
