SUMMARY

Drone racing is a sport where drone pilots strive to build extremely fast and agile multi-rotors (otherwise known as drones) to fly around a set course as fast as possible. Almost all drone races today are done using FPV (First Person View) systems. FPV is a type of drone flying where pilots use cameras to fly drones as if they were sitting in the cockpit. Some pilots fly using FPV monitors, where as others use specialized FPV goggles to give them a more immersive experience
