Summary

Rising use of helicopters in transportation, touring, and VIP movement has fuelled the demand for helicopters over the past few years. Helicopters can be employed in emergency situations as well, since they offer enormous manoeuvrability especially in small space and can reach to any affected area avoiding all the traffic on road as well as any natural calamity such as earthquake and flood. Moreover, these helicopters are equipped with passenger seats, better sound proofing capabilities, and air conditioning. Manufacturers are trying to make more visually appealing, carpeted interior and glossy finished commercial helicopters.
