## Abstracts

### Summary

High Performance Apparel, simply defined, are the garments that perform or function for some purpose. These performance clothing help athletes and active people keep cool, comfortable and dry through moisture management and other techniques. High Performance Apparel consist of two sections- Sports wear and Protective Clothing. High Performance Apparel is sold to both, individual consumers as sportswear at retail prices, and as business-to-business protective clothing at wholesale prices. For real, they have the same characteristics working to meet the needs of the wearer's circumstances, and to defeat the risks of the outside environment. There are many methods to make an apparel perform. They include making of garment in specified ways, fabric and trim specification, or fiber and chemical treatments.
