## Abstracts

### SUMMARY

Video intercom devices and equipment which is also named as the video door-phone or video door entry devices and equipment, is a stand-alone intercom system used to manage calls made at the entrance to a building with access controlled by audiovisual communication between the inside and outside. The main feature of video door entry is that it enables the person indoors to identify the visitor and, if (and only if) they wish, engage in conversation and/or open the door to allow access to the person calling.
