## Abstracts

### SUMMARY

Denim jeans are trousers typically made from denim fabric. They are now a very popular article of casual dress around the world. They come in many styles and colors. However, denim blue jeans are particularly identified with US culture, especially the United States Old West. As well, although denim jeans are mostly known as a fashion garment in the 2010s, they are still worn as protective garments by some individuals, such as cattle ranch workers and motorcycle riders, due to their high durability as compared to other common fabrics. Denim Jeans have very wide appeal. For some people denim jeans are considered as comfortable, durable and easy, for others they are more trendy and cool. Around 20 years ago denim jeans were a basic product, but nowadays it's a fashion product that changes every season. Being a fashion product, denim jeans come in different varieties. The cut of denim jeans varies in width, rise and thigh.
