SUMMARY

Deployable Military Shelter System is one of such product which is used in applications ranging from temporary medical support centres to incident commands and fatality management centres to emergency distribution centres. These systems are deployed in remote area for temporary period. These systems are totally mobile in nature and are made up of technical textiles. These systems are largely used by infantry, rescue team and medical support team but constant research and development in this niche product segment unfolded new opportunities. Nowadays, availability of shelter systems for military application has not limited to support and shelter to just Command Posts but also Medical Facilities Base and Aircraft and Vehicle Maintenance. A few of the North American and European companies developed deployable shelter systems to be used as hanger for Aircraft and Vehicle Maintenance.
