SUMMARY

Plumbing fittings are crucial components of plumbing systems installed in buildings for efficient distribution of water within the building for drinking, washing, heating and for removing waterborne wastes from the building. In our report, our data cover different materials plumbing fittings. The main materials include stainless steel, brass, iron and various plastic pipes. Also, our data cover ceramic plumbing fittings. However, our data do not include ceramic sanitaryware. Overall, fittings and ceramic sanitaryware components are two different categories. In the plumbing fitting industry, many manufactures produce brand-name goods on contract for international corporates, meanwhile, they also have their own brands. In this report, the production of OEM was not counted.
