## Abstracts

### Summary

PP Reusable Bags are bags made from the synthetic plastic polymer polypropylene, a frequently used material in consumer goods and some industrial applications. It is used for bags because it is strong, flexible, and can be made transparent. Polypropylene bags are manufactured for a variety of uses. Polypropylene is used for bags less commonly than polyethylene, another plastic polymer and the most frequently used material for disposable plastic bags and packaging, but is superior to polyethylene for bags that are meant to be reused.
