SUMMARY

Physical Security Information Management (PSIM) is a category of software that provides a platform and applications created by middleware developers, designed to integrate multiple unconnected security applications and devices and control them through one comprehensive user interface. Beyond the time-saving and efficiency benefits of automation, PSIM enables modern business processes that are essential to any modern security department. For organizations, this includes regular reports, incident logs, continuous process improvement initiatives, training drills, system healthcare checks, and much more.

The global PSIM market will reach xxx Million USD in 2021 with CAGR xx% 2021-2026. The objective of report is to define, segment, and project the market on the basis of product type, application, and region, and to describe the content about the factors influencing market dynamics, policy, economic, technology and market entry etc.

Based on products type, the report describes major products type share of regional market. Products mentioned as follows:

PSIM+

PSIM

PSIM lite

Leading vendors in the market are included based on profile, business performance etc. Vendors mentioned as follows:

CNL Software

NICE Systems Ltd.

Tyco international

Vidsys, Inc

AxxonSoft

Genetec

Intergraph Corporation

Milestone System

PRYSM Software

Verint Systems

Based on Application, the report describes major application share of regional market. Application mentioned as follows:

Critical Infrastructure

First Responders

Commercial

Military

Others

Based on region, the report describes major regions market by products and application. Regions mentioned as follows:

Asia-Pacific

North America

Europe

South America

Middle East & Africa
