SUMMARY

Sodium reduction ingredients (SRIs) are used to reduce the sodium content in the food products. SRIs is one of the fastest growing ingredients segments in the food industry. It is essential for people to consume only the recommended amount of sodium, which helps avoiding all the health concerns and side effects associate with it. However, people from most developing countries consume more sodium than what is recommended in the form of fast foods, packaged foods, fried foods, dairy products and bakery foods. This is the major reason for the many governments to regulate in the sodium consumption of the world.
