Abstracts

Dental radiography systems refer to the imaging devices that use X-ray technology for capturing images of teeth and surrounding tissues. These systems are used primarily in dental clinics, hospitals, and institutions to aid in diagnosis, treatment planning, and monitoring of oral health conditions. Dental radiography systems include intraoral and extraoral radiography systems, panoramic radiography systems, and cone-beam computed tomography (CBCT) systems.

The global Dental Radiography Systems market size was valued at US$1,150 million in 2017 and is expected to reach US$1,500 million by 2022, growing at a compound annual growth rate of 8.7% during the forecast period from 2017 to 2022. The factors driving the growth of the industry include the increasing prevalence of dental disorders, growing awareness about oral hygiene, and rising demand for cosmetic dentistry.

The industry is fragmented, with a large number of manufacturers competing in the market. North America is currently the largest market for dental radiography systems, followed by Europe and Asia-Pacific. The major global manufacturers in the dental radiography systems industry include Danaher, Sirona, Carestream, Planmeca, Vatech, Midmark, Asahi Roentgen, and Air Techniques.

These companies are investing heavily in research and development activities to develop more advanced dental radiography systems and expand their product portfolios. For instance, Sirona recently launched a new CBCT system, Galileos Comfort Plus, which is designed to provide high-quality images with low radiation doses.

The dental radiography systems industry is expected to continue to experience moderate growth in the future, driven by the increasing prevalence of dental disorders,

growing awareness about oral hygiene, and rising demand for cosmetic dentistry. In addition, the advancement of technology is expected to drive the growth of the industry, with manufacturers developing more advanced and efficient dental radiography systems.

In conclusion, the dental radiography systems industry is a growing market with significant potential for growth due to the increasing prevalence of dental disorders, rising awareness about oral hygiene, and advancement of technology. The major manufacturers in the industry are investing heavily in research and development activities to develop more advanced dental radiography systems to gain a competitive advantage. As such, the dental radiography systems industry is a promising market with potential growth opportunities for manufacturers in both developed and emerging markets.

The SWOT analysis of the Dental Radiography Systems industry is as follows:

Strengths:
Growing demand for dental services and increasing awareness about oral hygiene
Advancements in technology leading to more efficient and accurate radiography systems
Large number of manufacturers competing in the market, leading to innovation and price competition
High profit margins for manufacturers due to the specialized nature of dental radiography systems

Weaknesses:
High initial cost of dental radiography systems
Limited access to dental services in some regions
Concerns over exposure to radiation during X-ray imaging
Complex regulations and standards for manufacturing and sales of dental radiography systems

Opportunities:
Emerging markets with increasing demand for dental services
Development of portable and mobile dental radiography systems for use in remote or underserved areas
Expansion of product portfolios to include software for image analysis and patient management
Increasing adoption of digital dentistry technologies integrating dental radiography

systems

Threats:
Competition from alternative diagnostic imaging technologies such as MRI and ultrasound
Fluctuations in global economy affecting consumer spending on dental services
Increasingly stringent regulatory requirements and standards for dental radiography systems
Entry of new competitors with disruptive technologies or business models.

Key players in global Dental Radiography Systems market include:
Danaher
Sirona
Carestream
Planmeca
Vatech
Midmark
Asahi Roentgen
Air Techniques

Market segmentation, by product types:
Ordinary Radiography Systems
Panoramic Radiography Systems
CBCT

Market segmentation, by applications:
Hospitals
Dental Clinic
Institution
