Abstracts

In this report, we analyze the Geotextiles industry from two aspects. One part is about its production and the other part is about its consumption. In terms of its production, we analyze the production, revenue, gross margin of its main manufacturers and the unit price that they offer in different regions from 2014 to 2019. In terms of its consumption, we analyze the consumption volume, consumption value, sale price, import and export in different regions from 2014 to 2019. We also make a prediction of its production and consumption in coming 2019-2024.

At the same time, we classify different Geotextiles based on their definitions. Upstream raw materials, equipment and downstream consumers analysis is also carried out. What is more, the Geotextiles industry development trends and marketing channels are analyzed.
