HNY Research projects that the Regulatory Affairs Outsourcing market size will grow from XX Million USD in 2018 to XX Million USD by 2024, at an estimated CAGR of XX%. The base year considered for the study is 2017, and the market size is projected from 2019 to 2024.

Regulatory affairs departments play a vital role in the life sciences industry. With the changing regulatory environment and requirements, various companies tend to outsource regulatory affairs as it is beneficial in terms of time and money. Though large pharmaceutical companies have their in-house regulatory affairs department, managing large regulatory departments can be very expensive and the scope of knowledge and expertise required to manage these regulatory departments is limited. Regulatory affairs and operations encompass a wide range of processes such as country-specific regulatory affairs, report publishing, submission planning, regulatory data management, regulatory strategy, dossier conversion, literature searches, and others. In addition, expensive clinical trials and demand for reduced time required for commercialization of new drugs will further support the growth of the regulatory affairs outsourcing market.
