Ancient grains are a grouping of grains and pseudocereals that are considered to have been little changed by selective breeding over recent millennia, as opposed to more widespread cereals such as corn, rice and modern varieties of wheat, which are the product of thousands of years of selective breeding. Ancient grains are often marketed as being healthier than modern grains, though their health benefits have been disputed by some nutritionists. Ancient Grains are mainly classified into the following types: Gluten Free Ancient Grain and Gluten Containing Ancient Grain. Gluten Containing Ancient Grain is the most widely used type which takes up about 70.34 % of the total in 2017 in global. But the Gluten Free Ancient Grain will be more and more popular in the future. Ancient Grain sales mainly centralize in Europe. It took about 43.06% of global total market in 2017, followed is the Middle East and Africa and Asia-Pacific, about 21.43% and 16.55%. Ardent Mills, Bunge Inc., ADM are the key suppliers in United States market, which have leading technology and market position. Demand of Ancient Grain in the global market has maintained strong growth and the growth rate is around 2%. The major customers of Ancient Grain are Bakery and Confectionery Products,

Snacks, Direct Eating, accounting for 43.19%, 14.99% and 20.08% of the total Ancient Grain market.
