## Abstracts

The global Silver Powders and Flakes market was valued at 286.38 Million USD in 2021 and will grow with a CAGR of .9% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Silver powders and flakes are white powders with metal luster, and are face-centered cubic structure. They are excellent conductors of heat and electricity. Silver powders and flakes are inert for most acid, but could be quickly dissolved in dilute nitric acid and hot concentrated sulfuric acid. In consumption market, the global sales value increases with the 1.28% average growth rate. USA and China are the mainly consumption regions due to the bigger demand of downstream applications. We tend to believe this industry is a rising industry, and the consumption increasing degree will show a smooth growth curve. Besides, prices gap between different brands will go narrowing gradually. Also, there will be fluctuation in gross margin.
