The global leading player in this market is Federal Signal, whose revenue is \$ 1148.82 million in 2017, accounts for 13.03% of total revenue market. The vacuum truck is mainly used in industrial, excavation and municipal field. The application market share of industrial and excavation is up to 64% in 2017 and it is forecasted that share will be maintain by 2023 with the increasing collaboration among rental fleet owners and vacuum truck manufacturers. Currently, a major challenge affecting the market growth is the limitation of downstream market. As large demand of labor-efficient vehicles at home and abroad, many companies began to enter the field of labor-efficient vacuum truck industry. The widely application of vacuum truck promote the growth of customer segments and the rising demand for labor-efficient vehicles is bringing a radical change to the vacuum

truck market. With increased collaboration among construction equipment manufacturers and rental fleet owners, the products are being designed as per the customer need. The rental companies form a large customer segment for the vacuum truck market.
