The global Aerospace Fiber Optic Sensors market was valued at 2512.35 Million USD in 2021 and will grow with a CAGR of 13.89% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Fiber optic sensors are fiber-based devices for sensing some quantity, typically temperature or mechanical strain, but sometimes also displacements, vibrations, pressure, acceleration, rotations or concentrations of chemical species. This report covered the Temperature Sensor, Pressure sensors and rayleigh sensors. The consumption of Fiber Optic Sensors Consumption in Aerospace in 2011 is 10370 K Units, with the average growth rate above 15%, this number has reached 27221 K Units, according to the trends we estimate it will reach 60777 K Units around the world; Although there are many applications fields of Fiber Optic Sensors, such as Chemical Industry and Oil, aerospace is one of the most expensive field because its strict demand in the aerospace, the price of Aerospace Fiber Optic Sensors is higher than other fields. It has witnessed the decline of price from 744 USD to 618 USD for nearly 5 years. From the view of type, Temperature Sensor is most widely used form, it accounts for nearly 40% of the whole market, but the price of this kind sensor is not so expensive as other types; From the view of applications, Health monitoring for airframes accounts for nearly half of the whole market, although this ratio has witnessed decline for the past few years, it still ranks the most popular position in aerospace application As one kind of

technology intensive industry, it needs solid R&D foundation of the companies, most companies in this report which ranked the top 10 market all has many years` R&D experience and broadly market channel through wholesales and distributions.
