Anti-counterfeiting packaging is the process of assigning secure packaging to the product in order to minimize counterfeiting or infringement. The purpose of anti-counterfeiting packaging is to prevent imitation and confirms safety of the goods. Currently, the industry concentration of anti-counterfeiting packaging in consumer goods is relatively low. Major manufacturers of anti-counterfeiting packaging product are mainly in US, Europe, Japan and China. All manufacturers in the world are committed to the improvement of product quality. Currently, in anti-counterfeiting packaging in consumer goods industry, the USA and EU manufacturers occupy near 4/5 of the market, while Chinese products domain the domestic market, due to the immature technologies. Although sales of anti-counterfeiting packaging in consumer goods bring a lot of opportunities, the study group recommends the new entrants who just have money but without technical advantage, raw materials advantage and downstream support, do not enter into the anti-counterfeiting packaging in consumer goods field hastily.
