Abstracts

The global Arts and Crafts market was valued at 4212.94 Million USD in 2021 and will grow with a CAGR of 3.85% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

This report mainly covers the drawing pen, paints and stains, craft tools, and other product type. Overall, the arts and crafts industry continues to trend positively, as consumers continue to seek out do-it-yourself (?DIY?) home projects. In general, it seems consumers have an ongoing interest in crafting. However, the industry remains very competitive, with traditional brick-and-mortar arts and crafts stores facing competition from big box retailers such as Wal-Mart and Target, as well as online players such as etsy.com. The increased competition had caused many retailers to increase promotional activity to drive sales. While lower price points remain important for many consumers, many retailers have been recently focused on improving gross margin, and have been more strategic with the type and level of discounts offered.
