Abstracts

The global Asphalt Anti-strip Promoters market was valued at 133.83 Million USD in 2021 and will grow with a CAGR of 5.88% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Asphalt Anti-strip Promoters are added to asphalt to increase the occurrence and strength of asphalt-aggregate adhesion. In the past few years, the price of Asphalt Anti-strip Promoters decreased and we expect the price has pressure to increase in short time with new capacity released. However, the improvement of energy, transportation costs, employee wages, and equipment depreciation will play a significant role in promoting the cost of Asphalt Anti-strip Promoters. Therefore, to some extent, the companies face the risk of profit decline.
