Abstracts

The global Auto Labeler (Print & Apply System) market was valued at 243.25 Million USD in 2021 and will grow with a CAGR of 1.51% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Auto Labeler (Print & Apply System) provides automatic labeling and application of a label to a box or a product usually on a conveyor system. They are time stamped, serialized, or require a variation in every label that is applied to the product or shipping box. Any of these scenarios is easily resolved with automatic printing and application of the label. First, for industry structure analysis, the Auto Labeler (Print & Apply System) industry is relatively concentrated. These manufacturers ranging from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 62.77% of the revenue market. Regionally, North America is the biggest production value area of valves, also the leader in the whole Auto Labeler (Print & Apply System) industry. Second, the production of Auto Labeler (Print & Apply System) increased from 10979 Units in 2011 to 12920 Units in 2015 with an average growth rate of 4.15%. Third, North America occupied 28.10% of the production market in 2015. It is followed by China and Europe, which respectively have around 27.89% and 26.49% of the global total industry. Other countries have a small amount of production. Geographically, China was the largest consumption market in the world, which took about 28.74% of the global consumption volume in 2015.

Fourth, for price trend analysis, a key variable in the performance of Auto Labeler (Print & Apply System) producers is raw material costs, specifically the speed at which any increase can be passed through to customers. Fifth, for forecast, the global Auto Labeler (Print & Apply System) revenue would keep increasing with annual growth rate with 2~5%. We tend to believe that this industry still has a bright future, considering the current demand of automation of packaging.
