Automotive Decorative Exterior Trims are series of molded trim parts that decorate vehicles to improve their esthetic appeal. Automotive Decorative Exterior Trims are chrome plated or painted and are fitted on bumper grills, hood, doors, and windows. Manufacturers are mainly concentrating on using light raw material such as plastics to replace metals for the vehicles owing to benefits such as cost-effectiveness and easy moulding into various shapes. Moreover, plastic is easier to paint than its counterparts. These advantages have resulted in a high usage of the product thereby escalating revenue generation.
