Abstracts

The global Baby Bottles market was valued at 145.6 Million USD in 2021 and will grow with a CAGR of 6.46% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A baby bottle is a bottle with a nipple to drink directly from. It is typically used by infants and young children when a mother does not breastfeed. A baby bottle is usually made from glass and plastic materials. Due to global gradually slow neonatal growth speed, baby bottle market developed smoothly in recent years. At present, USA, Europe and China are the main consumption market of baby bottle. Developing countries in Africa, Asia and South America are emerging market and will be more important in future. Viewed from the supply side, there are many manufacturers in the baby bottle industry, while from the demand side; the current demand for baby bottle is growing. At present, there are a mass of manufacturers in the market. Leading six companies in the market occupies about 40% of the market shares. Major manufacturers in the market are Pigeon, Avent, NUK, Playtex, Dr. Brown`s and Nuby. As downstream demand grows and technical barriers become less, there will be a huge market space for baby bottle. To grab more market, the little companies have to expand the technology, capital investment and brand influence. To meet the challenge of new entrants and keep their leading stage, leading companies need to increase the technology innovation and speed up the product upgrading. In the future, baby bottle market will still be a market of

fierce competition. In order to feed the changing technical requirements, baby bottle manufacturers need to pay attention to the technical innovation. In future, new materials and health protecting will be the technology trends of baby bottle.
