Abstracts

The global Baby Travel Bags market was valued at 38.71 Million USD in 2021 and will grow with a CAGR of 4.69% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A Baby Travel Bags or diaper bag is a storage bag with many pocket-like spaces that is big enough to carry everything needed by someone taking care of a baby while taking a typical short outing. Increasing birthrate in emerging economies of Asia Pacific including India and China is anticipated to drive the demand for infant items over the forecast period. Rising awareness among the customers about infant nutrition, hygiene, and safety in the region will fuel demand over the forecast period. Continuous innovation among manufactures is expected to propel industry growth over the forecast period.
