Abstracts

The global Bakery market was valued at 684.47 Million USD in 2021 and will grow with a CAGR of 2.34% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A bakery is an establishment that produces and sells flour-based food baked in an oven such as bread, cookies, cakes, pastries, and pies. Some retail bakeries are also cafés, serving coffee and tea to customers who wish to consume the baked goods on the premises. The increasing demand for bakery drives the market. Availability of foods at reasonable prices, variety of products, rapid urbanization, hectic lifestyles, health benefits and the convenience of baked products are key factors contributing to the growth of market. Increasing preference for bread, rolls, cakes and pastries, pies, cookies, crackers, pretzels and tortillas is expected to augment demand over the forecast period. Europe dominates the global bakery market and is expected to be the highest revenue contributor until the end of 2020. The European bakery industry is a traditional one with many established bakers and bakery chains that follow traditional artisanal practices and also align with modern-day requirements.
