Abstracts

The global Bathroom Vanities market was valued at 3007.18 Million USD in 2021 and will grow with a CAGR of 3.84% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A bathroom vanity can be defined as the combination of the bathroom sink or basin and the storage that surrounds it. It is generally thought of as being a piece of bathroom cabinetry that is designed to hold the sink and conceal the associated plumbing as well as providing much needed storage. The benchtop is also an important part of the bathroom vanity and benchtops are available in stone, reconstituted stone, cement, wood, laminate, and more. Bathroom vanities are made from different materials but they are usually moisture resistant or waterproof, due to the fact that the bathroom is the biggest wet area in the home. The key players are Kohler, American Woodmark Corporation, IKEA, TOTO, American Standard, etc. Top 10 players account for about 42% of total market. In terms of product classification, Bathroom Vanities can be generally divided into single sink and double sink. In 2019, the single sink accounts for the largest proportion of the market share, about 66%.
