The global Bentonite market was valued at 102.82 Million USD in 2021 and will grow with a CAGR of 2.26% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

The name bentonite was first suggested in 1898 for clay hosted by the Benton Shale in Wyoming. It was initially described as clay formed by the alteration of volcanic ash, but the most widely used commercial definition is that bentonite is clay consisting essentially of smectite minerals (usually montmorillonite) regardless of occurrence or origin. Most economic bentonite deposits are of Cretaceous age or younger and associated with marine shale and marl (Wyoming), calcareous sands and marls (Morocco), carbonaceous shales and coal (South Africa), sandstone and conglomerate (Australia), dacitic pyroclastics and tuffs (Milos), andesite (China) or rhyolite and obsidian/perlite (China and Mozambique). United States is the largest producer and consumer, due to its rich reserves and strong demand of bentonite. In North America, the market concentration is very high, most of bentonite is concentrated in Wyoming and developed by few manufacturers like Amcol, Bentonite Performance Minerals LLC (BPM), Wyo-Ben Inc, Black Hills Bentonite and Tolsa Group (acquired the assets of U.S. Bentonite in the end of 2014). In Europe, Greece, France, Italy, Slovakia, Netherlands, UK, Russia and Germany are the major producers, and the market is dominated by few players like Imerys (S&B), Clariant, Bentonite Company LLC

(Russia), Laviosa Minerals SpA, LKAB Minerals and Tolsa Group etc. In Asia-Pacific, the market concentration is low, the manufacturing bases are mainly distributed in China, India, Malaysia, Thailand and Indonesia, and the market is dominated by lots of small and medium-sized manufacturers, like Ashapura and Star Bentonite Group in India; Huawei Bentonite, Fenghong New Material, Chang'an Renheng, Liufangzi Bentonite and Ningcheng Tianyu in China; These manufacturers mainly supply the low-end products, low added-value, low price and fierce competition. In addition, the giants like Amcol, Imerys (S&B) and Clariant, have entered the Asia-Pacific market, through acquisition or joint venture.
