The global Biopharmaceutical Logistic market was valued at 7804.84 Million USD in 2021 and will grow with a CAGR of 3.69% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Biopharmaceutical Logistics is the logistics of Biopharmaceutical, medical and surgical supplies, and other products needed to support doctors, nurses, and other health and dental care providers. Because it's final customers are responsible for the lives and health of their patients, medical logistics is unique in that it seeks to optimize effectiveness rather than efficiency. Medical logistics functions comprise an important part of the health care system: after staff costs, medical supplies are the single most expensive component of health care. To drive costs out of the health-care sector, medical logistics providers are adopting supply chain management theories. shipping is set to dominate the biopharmaceutical logistics market. The expansion of the air shipping segment is attributed to air freight being the fastest way of transporting pharmaceutical products with negligible damage or product deterioration, which is desired for transporting temperature-sensitive vaccines and critical biologic drugs. However, air shipping has a limitation of volume which can be transferred, so sea shipping and ground shipping will outpace air shipping in volume growth during the forecast period. Market competition is intense. Deutsche Post DHL, Kuehne + Nagel, FedEx, AmerisourceBergen, UPS (Marken), DB Schenker etc. are the leaders of the industry, and they hold key technologies, with high-end customers; have been formed in the monopoly position in the industry.
