Abstracts

The global Chandeliers market was valued at 99.78 Million USD in 2021 and will grow with a CAGR of 1.02% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A chandelier is defined as a lamp which is suspended from the ceiling either directly from a ceiling lamp outlet, or simply from a hook in the ceiling and then plugged into a common wall socket. Chandeliers use small, lower wattage bulbs that are usually shaped in the form of a candle flame, though these lamps are not limited to small bulbs. There are often three or more light bulbs in one chandelier, giving off from 100 to 400 watts of total light. Chandeliers can be used in nearly any room, from a fancy, formal dining room to a child's bedroom or game room. The most popular ones are the type with dangling cut glass crystals surrounding the bulbs, creating a beautiful spectrum of light. These more formal lamps are usually brass or gold plated, and will bring elegance and formality to the room in which they hang. While chandeliers can be appropriate in any type of room, choosing the correct size is paramount. A giant one will overcome a tiny room while a small one hung over a long dining room table will look lost. In general, a smaller room with dimensions of 10 x 10 ft (3.05 x 3.05 m) would comfortably house a chandelier no more than 20 inches (50.8 cm) in diameter. A 12 x 12 ft (3.66 x 3.66 m) room will hold one of up to 27 inches (68.58 cm) in diameter. An exceptionally large one with a diameter of 36 inches (91.44 cm) or more should only be hung in a room that is

14x 14 ft (4.27 x 4.27 m) or larger. When choosing a chandelier to hang over a table, it should normally hang at least 30 inches (76.2 cm) from the surface of the table, and should be about 12 inches (30.48 cm) narrower than the table's width. James R. Moder, Kichler Lighting, DE MAJO illuminazione, Wilkinson and Kenroy Home are the top 5 companies of the global Chandeliers industry, with about 24% market shares.

Key Indicators Analysed

Market Players & Competitor Analysis: The report covers the key players of the industry including Company Profile, Product Specifications, Production Capacity/Sales, Revenue, Price and Gross Margin 2016-2027 & Sales with a thorough analysis of the market's competitive landscape and detailed information on vendors and comprehensive details of factors that will challenge the growth of major market vendors.

Global and Regional Market Analysis: The report includes Global & Regional market status and outlook 2016-2027. Further the report provides break down details about each region & countries covered in the report. Identifying its sales, sales volume & revenue forecast. With detailed analysis by types and applications.

Market Trends: Market key trends which include Increased Competition and Continuous Innovations.

Opportunities and Drivers: Identifying the Growing Demands and New Technology

Porters Five Force Analysis: The report provides with the state of competition in industry depending on five basic forces: threat of new entrants, bargaining power of suppliers, bargaining power of buyers, threat of substitute products or services, and existing industry rivalry.

Key Reasons to Purchase

To gain insightful analyses of the market and have comprehensive understanding of the global market and its commercial landscape.

Assess the production processes, major issues, and solutions to mitigate the development risk.

To understand the most affecting driving and restraining forces in the market and its impact in the global market.

Learn about the market strategies that are being adopted by leading respective organizations.

To understand the future outlook and prospects for the market.

Besides the standard structure reports, we also provide custom research according to specific requirements
