Abstracts

The global Chocolate Confectionery market was valued at 10217.95 Million USD in 2021 and will grow with a CAGR of 1.96% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Confectionery, also called sweets or candy, is sweet food. The term varies among English-speaking countries. In general, though, confectionery is divided into two broad and somewhat overlapping categories, bakers` confections and sugar confections. The company has introduced the kinder toys within the chocolates and strategies such as blue chocolates and pink chocolates aimed at boys and girls respectively. In addition, the company also has conducted several marketing events. For instance, in the 2016, the company initiated an innovative platform for storytelling, namely `The Kinder Joy story station` to increase brand engagement. This platform resulted in the company receiving over 2.2 million calls in three months. Such advertising and marketing strategies are bound to increase the demand for chocolate confectionery products over the forecast period.
