The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

The Push-pull connector was invented by Swiss connector manufacturer LEMO and is a type of cable interconnect that provides a strong locking mechanism that is only released by squeezing the connector body, preventing accidental disconnects. The connector is cylindrical, enabling a wide range of body styles and configurations such as low or high voltage multipin, coaxial, triaxial, fluid and gas. Fischer Connectors and Lemo are well-known Swiss manufacturing company that are leaders in developing and manufacturing broad range of circular push-pull connectors. LEMO, Molex, TE Connectivity, Amphenol, ITT Cannon, Fischer Connectors, Hirose, ODU, Esterline Connection, Binder are top global players in Circular push pull connector market. Circular push pull connectors offer light weight and assure high reliability and durability as well as easy push-pull operation. You may apply our connectors to all kinds of small-sized electronic equipment requiring high reliability. These simple but refined connectors are most suitable for portable electronic equipment which requires good appearance. Besides, key system permits only one way of coupling so that you can find right position to connect even when blind mating. One of the salient features of Circular Push Pull Connectors market is the cooperation with downstream players, which brings

more income than the retail sales, for large companies especially.

Geographically, the consumption market is leading by Asia-Pacific?North America and Europe, sales in Asia Pacific regions like China, Japan, Korea and Taiwan will see significant growth in future period. In terms of production, North America holds the largest market share, with about 35.13% production share in 2017, followed by Europe, with about 33.62% market share, China will keep playing important role in Global market. Market concentration of Circular Push Pull Connectors industry is low, top 5 comprised of 45% global share in term of sales revenue in 2017. There are many small players around the world. LEMO and Amphenol are the biggest two players in Circular Push Pull Connectors market, with about 12.27% and 12.05% market share separately in 2017. Other leading market players in Circular Push Pull Connectors market include TE Connectivity, ITT Cannon, Molex etc. the market competition may become more intense with more innovation products, acquisitions and improvement of raw material cost control and etc. Each of the Circular Push Pull Connectors manufacturers has its own mature sales networks.
