The global Collapsible Rigid Containers market was valued at 52.65 Million USD in 2021 and will grow with a CAGR of 3.79% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Collapsible rigid containers have emerged as an innovation to cut the repositioning & handling costs as well as to solve the space shortage problem. Collapsible rigid containers are in high demand owing to the customer requirement who don't want empty containers to accumulate the same space in a warehouse or on trucks as they do when they are full. These containers can thus be collapsed or unfolded to their number of fractions leading to stability and load capacity. For industry structure analysis, the Collapsible Rigid Containers industry is not concentrated. These manufacturers range from large multinational corporations to small privately owned companies compete in this industry. The top five producers account for about 27.32 % of the revenue market in 2017. Regionally, Europe is the biggest production value area of valves, also the leader in the whole Collapsible Rigid Containers industry.
