A power tool is a tool that is actuated by an additional power source and mechanism other than the solely manual labor used with hand tools. Cordless Power Tools are just that, power tools that do not have a cord because they are powered by a battery or battery pack. Cordless power tools offer the utmost in convenience and flexibility. At present, the major players of Cordless Power Tools in the world include TTI, Stanley Black & Decker, Robert Bosch, Makita, HiKOKI, Stihl, Husqvarna, Snap-on Incorporated, Greenworks, Hilti, Dongcheng, Festool, Positec Group, etc. Among which TTI is the world's largest Cordless Power Tools manufacturer, its market share is about 16%. North America holds a big market share of the Cordless Power Tools market and accounted for over 30% of the global revenue share. The region is characterized by the presence of a large number of service providers, especially in the USA. Asia Pacific, Latin America also play important roles in this market. There has been a shift from corded to cordless power tools. While corded tools still possess considerable sales, the shift to cordless is substantial. Cordless power tools include batches of battery-powered tools like saws, outdoor gardening power tools, hammer drills, impact drivers, impact wrenches and many others. These tools are ideal for welding, sanding, cutting,

metalworking and other applications.
