Abstracts

The global Cut Flowers market was valued at 3162.05 Million USD in 2021 and will grow with a CAGR of 6.25% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A Cut Flower can simply be defined as any flower that is cut from the plant, thorns trimmed, and are ready to be used in a fresh flower arrangement. Cut Flowers are available at the florist or can be cut from the home garden. Cut flowers belong to the family of floriculture. Floriculture involves propagating, growing and marketing cut flowers, flower seeds and seedlings, bulb growing, nursery operation, chemical protection of plants, post-harvest storage and handling and use of preservatives. It is an international, multi-billion dollar industry. As for consumption, Europe is also the largest consumer of cut flowers, with 52.32% consumption share in 2017. North America and China are also key consumers. In addition, on the consumption side of the business, the rise of online Floriculture sales is definitely one of these trends.
