Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Decabromodiphenyl Ethane (DBDPE) is a wide-ranged, white powdered and additive type fire retardant widely used. It has very good thermal stability, high bromine content and it exhibits good UV resistance. It has a lower transudation as compared to other fire retardant of bromine series, so it is especially suitable for slap-up materials used to produce computer, electrograph, telephone, manifold, household electrical appliances etc. North America is the largest consumption of Decabromodiphenyl Ethane, with a sales revenue market share nearly 28.64% in 2015. The second place is China; following North America with the sales revenue market share over 21.26%. Europe is another important consumption market of Decabromodiphenyl Ethane.
