Abstracts

The global Demi-Fine Jewellery for Women market was valued at 217.8 Million USD in 2021 and will grow with a CAGR of 23.57% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Demi-fine offers contemporary designs crafted from gold plated silver and semi-precious gemstones marketed at moderate prices. This offering seamlessly bridges the gap between high street jewelry and aspirational fine jewelry. Typically with fine jewellery, you see pieces made out of precious stones and metals with larger price tags, while costume Jewellery uses metal alloys and has prices below \$100. Demi-fine Jewellery merges these two mediums by creating pieces made with gold (below 18 karats) and silver or plated pieces paired with semi-precious stones, hitting that sweet spot under \$400. Global Demi-Fine Jewellery For Women key players include Missoma, Otiumberg, Edge of Ember, etc. Global top 3 manufacturers hold a share over 26%. Europe is the largest market, with a share about 43%, followed by North America, and Japan, both have a share about 37 percent. In terms of product, Below 150 USD is the largest segment, with a share over 33%. And in terms of application, the largest application is Online Retail, followed by Flagship Stores, Shopping Mall and Others.
