### Abstracts

The global Dental Chairs market was valued at 1780.16 Million USD in 2021 and will grow with a CAGR of 4.85% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Dental chairs are compact, space-saving equipment that can be adjusted for height, backrest, and armrest to provide support to patients and HCPs. Dental chairs are used by dentists. They have a foot switch, an imaging system, a balance arm, an operating light, an X-ray viewer, and an extended tray attached to them. The increasing of product bundling will be one of the latest trends that will gain traction in the dental chairs market during the next four years. The manufacturers in the market are offering other product along with dental chairs, for instance Midmark has extended its promotional program, which is called the Midmark Corporation Game Changer Operator Promotion, to offer significant price reductions on select product bundles. This will help manufacturers to increase their market penetration and sales for their product, such initiatives will drive the growth of the market.
