The global Deployable Military Shelter Systems market was valued at 12.04 Million USD in 2021 and will grow with a CAGR of 1.89% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Deployable Military Shelter System is one of such product which is used in applications ranging from temporary medical support centres to incident commands and fatality management centres to emergency distribution centres. These systems are deployed in remote area for temporary period. These systems are totally mobile in nature and are made up of technical textiles. These systems are largely used by infantry, rescue team and medical support team but constant research and development in this niche product segment unfolded new opportunities. Nowadays, availability of shelter systems for military application has not limited to support and shelter to just Command Posts but also Medical Facilities Base and Aircraft and Vehicle Maintenance. A few of the North American and European companies developed deployable shelter systems to be used as hanger for Aircraft and Vehicle Maintenance. Deployable Military Shelter System, used by army personnel, is a kind of niche product necessitated by the advancements in military activities, tactics, exercises and joint operations. The international military spending for 2017 remains high. Together the 29 NATO member states accounted for 52% of spending, with the US making up 35% of the world share. Despite this, the boost in global military expenditure in recent years has largely been attributed to growth in

countries in Asia, Oceania, and the Middle East. It is obvious that the Deployable Military Shelter plays an important role in the Command Posts, Medical Facilities Base and Aircraft and Vehicle Maintenance. Global revenue of the top 3 Deployable Military Shelter Systems manufactured (HDT Global, Roder HTS Hocker and Alaska Structure) is valued at 43.45 million USD, occupying about 36.95% market share in 2017. Geographically, North America is the largest sales market in the world, which took about 30.82 percent of the global consumption volume in 2017 and share 35.26% of global total revenue. Europe also plays an important role in the global Deployable Military Shelter Systems market.
