## Abstracts

The global Diethyl Carbonate (DEC) market was valued at 15.68 Million USD in 2021 and will grow with a CAGR of 2.3% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Diethyl carbonate (DEC) is a carbonate ester with the formula  $\text{CO}(\text{OCH}_2\text{CH}_3)_2$ . Diethyl carbonate is widely applied in the field of medicine, pesticides, battery, and others. The diethyl carbonate (DEC) industry concentration is high; the manufacturers are distributed in Japan and China, due to the environmental and manufacturing cost factors. There are three manufacturers in Japan, they are UBE Group Kishida Kagaku and Kowa Company. In China, there are less than twenty manufacturers like Chaoyang chemical, Shandong Shida Shenghua, Tongling Jintai Chemical, Shandong flying, Carcol Chemical, Liaoyang Best Group and Lixing Chemical etc., the homogeneity of the products is serious, and the market competition is fierce. Globally, the diethyl carbonate products are mainly used in electrolyte, pharmaceuticals and pesticides, and synthetic fiber and resin fields etc. China is the largest producer and consumer, and Japan is also a very important producer and consumer in 2014. Europe and USA are the important consumption regions, and they two consume more than 34% of global diethyl carbonate products in 2014. The diethyl carbonate industry is easily affected by the global economy and the environmental protection policy, the price will fluctuate in the future, due to the risk of global economic volatility.
