The global Digital Servo Press market was valued at 16.24 Million USD in 2021 and will grow with a CAGR of 4.64% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A digital servo press features the same elements as the high-end actuator, but also includes active motor cooling, signal amplifiers and a controller with dedicated software to provide true closed-loop control of both force and position. The press's mechanism and drive will vary, depending on model. Mechanism types include ballscrew, planetary roller screw (for higher forces) and rack-and-pinion. The presses can be driven directly by the servomotor or through a gearbox. In the coming years there is an increasing technology breakthrough for digital servo press in the regions of Japan and Europe that is expected to drive the market for more advanced digital servo press. Increasing of automotive and electronics fields expenditures, more-intense competition, launches in introducing new products, increasing of spending on general industry, retrofitting and renovation of old technology, increasing adoption of digital servo press in developing countries will drive growth in global market. Globally, the digital servo press industry market is low concentrated as the manufacturing technology of digital servo press is relatively matures than some high-tech equipment. And some enterprises, like F Janome Industrial Equipment, Promess, Kistler and Tox Pressotechnik, etc. are well-known for the wonderful performance of their digital servo press and related services. At

the same time, Japan, occupied 41% production market share in 2017, is remarkable in the global digital servo press industry because of their market share of digital servo press.
