The global Duplex Stainless Steel market was valued at 2477.7 Million USD in 2021 and will grow with a CAGR of 2.74% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Increasing demand for duplex stainless steel from various end-use industries, such as oil & gas, chemical, desalination, pulp & paper, construction, and energy is expected to drive the demand for duplex stainless steel during the forecast period. Among grades, the super duplex segment is projected to grow at the highest CAGR during the forecast period. Super duplex stainless steels are designed to handle extreme corrosive and high pressure situations, and for this reason, this grade is widely used in the oil & gas exploration activities. The growing oil & gas exploration activities are expected to drive the growth of this segment in the forecast period.
