Abstracts

The global E-Readers market was valued at 303.74 Million USD in 2021 and will grow with a CAGR of 12.44% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact wwhich will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market verdors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

An e-reader, also called an e-book reader or e-book device, is a mobile electronic device that is designed primarily for the purpose of reading digital e-books and periodicals.Any device that can display text on a screen may act as an e-reader, but specialized e-reader designs may optimize portability, readability (especially in sunlight), and battery life for this purpose. A single e-reader is capable of holding the digital equivalent of hundreds of printed texts with no added bulk or measurable mass. Fuelled by high demand from the U.S., North America is expected to emerge as a key regional market. Increasing sales in China and growing popularity in India is expected to play a pivotal role in Asia Pacific shaping up as a lucrative market.
