## **Abstracts**

The global Electrohydraulic Actuator market was valued at 26.63 Million USD in 2021 and will grow with a CAGR of 3.46% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact wwhich will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market verdors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

This report studies the Electrohydraulic Actuator for industrial market. Electrohydraulic actuators (EHAs) eliminate the need for separate hydraulic pumps and tubing, simplifying system architectures and improving safety and reliability. Electrohydraulic actuators incorporate servo valves and electronic controls to provide rod position feedback; thereby ensuring efficient machine operations. This amalgamation heightens accuracy, enhances functionality, improves ease-of-use, and better controls performance. In the coming years there is an increasing demand for electrohydraulic actuator in the regions of North America and Europe that is expected to drive the market for more advanced electrohydraulic actuator. Increasing of power and industrial fields expenditures, more-intense competition, launches in introducing new products, increasing of spending on general industry, retrofitting and renovation of old technology, increasing adoption of electrohydraulic actuator in developing countries will drive growth in global markets. Globally, the electrohydraulic actuator industry market is low concentrated as the manufacturing technology of electrohydraulic actuator is relatively matures than some high-tech equipment. And some enterprises, like Rotork, Rexa, HOERBIGER and Emerson etc. are well-known for the wonderful performance of their

electrohydraulic actuator and related services. At the same time, North America, occupied 31.80% production market share in 2017, is remarkable in the global electrohydraulic actuator industry because of their market share and technology status of electrohydraulic actuator.
