The global Epoxy Coatings market was valued at 2425.74 Million USD in 2021 and will grow with a CAGR of 4.41% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Construction is the largest application of epoxy coatings. The construction industry is driven by rising urbanization in Asia-Pacific and RoW, which has resulted in increased demand for residential, commercial, and industrial infrastructure. Low interest rates on housing loans are also responsible for increase in the demand for new houses, eventually driving the construction application of epoxy coatings. The drivers identified for the epoxy coatings market are growth in application areas, increased demand for waterborne epoxy coatings, and growing demand from developing nations.
