Ether amines are a unique class of industrial chemicals used primarily in epoxy systems. Mainly used to increase flexibility, toughness, hydrophilicity or hydrophobicity (depending on the product used), they also offer various reactivities, good temperature stabilities, are essentially colourless and have a low viscosity. Because of their unique structure and variety of chemical reactions, these products have found their way into many different end uses. Ether amines are a unique class of industrial chemicals used primarily in epoxy systems. Mainly used to increase flexibility, toughness, hydrophilicity or hydrophobicity (depending on the product used), they also offer various reactivities, good temperature stabilities, are essentially colourless and have a low viscosity. Because of their unique structure and variety of chemical reactions, these products have found their way into many different end uses. Ether amines can be classified as Poly Ether Amine Aliphatic Ether Amines, Ethoxylated Ether Amines and Ethoxylated Fatty Amines. Poly Ether Amine is the major kind of Ether Amine for industrial use. Poly Ether Amine (also called Amino terminated polyether or polyether polyamine) is a kind of polyepoxy alkane compounds terminated by primary amidogen or secondary amidogen; and the molecular framework is polyether and the reactive group is terminal

amidogen. The Poly Ether Amine industry concentration is very high; mainly in Europe and the United States, and high-end products mainly from USA. Huntsman, BASF and Acryl captured the top three sales volume share spots in the Poly Ether Amine market in 2017. Epoxy Coating, Polyurea, Adhesives & Sealants and Fuel Additives industry are major applications of poly ether amines and derivatives. The market of the above industries is predicted to be stable in the coming years. Aliphatic ether amines are critical agents used in the mining process to beneficiate minerals such as iron ore and phosphates. Market of aliphatic ether amines is concentrated, with Air product and Clariant holding a majority share of global market.
