Evaporative Air Cooler for Home represent a low-cost, energy-efficient and an environmentally-friendly alternative to air conditioners. Air coolers are simple to use and cools air through the evaporation of water. Unlike conventional air conditioners, evaporative coolers require fresh air and work best with open windows and doors. They are best suited for residences, showrooms, shops, offices, especially where doors are opened and closed frequently - a major advantage over conventional air conditioners. Besides, they consume significantly less electricity and produce no emissions.
