Abstracts

The global Exterior Doors market was valued at 6456.61 Million USD in 2021 and will grow with a CAGR of 6% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

Exterior doors include panel doors, bypass doors, bifold doors, pocket doors, and others. These doors are generally fitted on the front gate of the entrance of houses and other nonresidential areas, thereby, enhancing the overall appearance. Exterior doors are also known as entry doors and provide various features such as energy efficiency, cost reduction, and high durability. Customers can easily choose doors according to their choices, preferences, and individual personalities owing to the availability of a wide range, style, and designs of exterior doors. Residential construction dominates the market; however, nonresidential construction is expected to grow at relatively higher rate globally. The maximum demand for exterior doors market is generated from panel doors. Panel doors are gaining traction among the end user due to their ability to accentuate the aesthetic appeal of building entrances.
