### Abstracts

The global Food Spread market was valued at 2102.8 Million USD in 2021 and will grow with a CAGR of 1.91% from 2021 to 2027, based on HNY Research newly published report.

The prime objective of this report is to provide the insights on the post COVID-19 impact which will help market players in this field evaluate their business approaches. Also, this report covers market segmentation by major market vendors, types, applications/end users and geography(North America, East Asia, Europe, South Asia, Southeast Asia, Middle East, Africa, Oceania, South America).

A spread is a food that is spread, generally with a knife, onto foods such as bread and crackers. Sweet spreads are an integral part of every breakfast and this has led to their steady growth. The rising health consciousness among consumers has given way to new low calorie spreads.
